

Shelton Day Vendor Instructions for Sunday, October 1, 2023

Spaces are assigned at our sole discretion.

Food Trucks arrive at 8:00 and set up on Canal Street. Canal Street will be closed for all but food trucks.

Other vendors arrive between 9:00 and 10:00 am, enter the parking area and drive slowly on the grass to the rear of the park, turn into the aisle as directed by the attendants, quickly drop all your stuff into your designated space, then immediately continue to drive slowly on the grass to the front of the park, turn left, still on the grass, and proceed to park in the parking area. Go back to your space on foot to set up.

Please do not occupy more space than you have booked.

We sometimes have strong winds in October. The park is built on a concrete slab, and there is not much soil on top of that. Spikes are often not enough to keep your tent from lifting off. We strongly recommend weights and/or sandbags to anchor your tent.

Remember, there is no electricity, water, or other utilities. Generators are restricted to the food truck area. No loud audio in the booth area.

Food preparation is restricted to the food truck area. If you have a booth with food, only pre-packaged food is permitted.

All vendors selling or giving away food must have a health permit from the Valley Health District.

All vendors selling anything must have a CT sales tax permit.

Vendors without proper permits are subject to removal with no refund.

Load-out follows the same procedure as Load-In. Unless we declare an early end, do not load out until after 5:00. **Especially** do not drive into the exhibition area while there are still fairgoers walking about.
